Statistical Courses

3

Process & Machine Capability Studies *New

(4 hours 45 mins video duration)

- Introduction
- Origin of the statistics
- Fundamentals of statistics
- Concepts of variation & Stability of process
- The significance of "Sigma factor"
- Six sigma & Process capability (Cp & Cpk)
- Z-scale methodology
- Ppk study & Machine capability (Cm & Cmk)

Very Practical

Packed with many case studies

Highly Interactive

Systematic Problem-Solving Courses

4

Analytical Tools for Improvements Stage 1 - 7QC & New 7QC Tools

(4 hours 20 mins video duration)

- Base 1
- Base 2
- Check sheet
- Pareto Diagram
- Stratification
- Flow Charts
- Affinity Diagram
- Relation Diagram

5

Analytical Tools for Improvements Stage 2 - 7QC & New 7QC Tools

(4 hours 50 mins video duration)

- Histogram
- Normality test
- Box plot
- History of New 7 QC tools
- Tree diagram
- Matrix diagram
- Matrix Data Analysis
- Likert scale methodology

6

Problem Solving Methodology ***New**

(7 hours video duration)

- Basics
- Fundamentals
- Tools & Techniques used
- A deep dive on 12 step approach
- A case study
- 8D methodology
- Introduction to DMAIC
- Good PSM practises
